

## Lesson Plans - Week of October 1, 2018

**Monday, October 1** – Read *The Crucible* Act 4 and the Appendix

**Tuesday, October 2 & Wednesday, October 3** – Group Psychology Activity. You're the doctor! Each pair within your group will be assigned a different character to diagnose. Online, research the list of ailments and disorders below. As you research, discuss characters whose behavior may be influenced by a personality disorder or illness. **SAVE A LINK TO YOUR ONLINE RESEARCH!**

Bipolar disorder, Major depressive disorder (Depression), Anxiety Disorders, Schizophrenia/Psychotic Disorders, Oppositional defiant disorder, Dissociative identity disorder (DID), Pathological jealousy, Narcissistic personality disorder, Post-Partum Depression, Neurotic Guilt, Borderline Personality Disorder Symptoms, Hubris Syndrome

Find examples in the play when your character demonstrated the symptom. Your evidence can be something the character says or does. Your evidence may also be description from the narrator or from another character.

After you've diagnosed your character and found online research and evidence from the play, use your Microsoft Office Suite to prepare a GROUP Powerpoint. Your login is [999999@wcskids.net](mailto:999999@wcskids.net) (insert your students number for the 9's). One member of the group needs to create the Powerpoint and then share it with the other members **AND WITH ME**. My email to share is [jpeabody@wcskids.net](mailto:jpeabody@wcskids.net). You can all edit at the same time. The first slide should contain the first and last name of all group members.

**Each pair within the group will prepare four slides:**

Slide #1 – Name of ailment/disorder

Slide #2 - bulleted symptoms that apply and a hyperlink to your online source

Slide #3 – Name of character who may suffer from this ailment

Slide #4 - Evidence from the play (a short quote) to support your diagnosis. Include the page number!

**Thursday, October 4**

Present Powerpoints in class and discuss.

**Friday, October 5 – MLA Practice!**

- One person in the group creates a Microsoft Office 365 Word document and titles it Works Cited. This person shares it with the group.
- Group members work together (everyone must understand how to do this) to create works cited entries for both your outside research and the play. Use [www.citationmachine.net](http://www.citationmachine.net) or [www.easybib.com](http://www.easybib.com).
- Submit this page for a group classwork grade to Schoology.
- **Individual work!** Everyone must create their own individual *Crucible* Essay file within Microsoft Office 365. Log in to Office 365 from either my website or the district website (under student/email login). Once you are on Word, search new templates, MLA style paper, fill in and get rid of brackets around the personal information (name, my name, etc). Delete the remaining text. Save to your drive!
